

## **Icom IC-905**

The IC-905 is the industry's first microwave rig in the 144, 430, 1200, 2400, 5600 MHz and 10 GHz\* bands.

Multi-mode operation in SSB, AM, FM, D-STAR DV/DD, and FM-TV (Amateur TV) is possible.

Output power is 10 W on 144, 430, 1200 MHz, 2 W on 2400, 5600 MHz, and 0.5 W on 10 GHz.

\* CX-10G is required for 10 GHz operation.

For more details see the Icom UK website.

## **Woofferton HF Transmission Station**

Woofferton shortwave transmission station is located in rural Shropshire, close to the English border with Wales, near the town of Ludlow. Woofferton has been operating for the past 60 years and currently provides TV and radio teleport services for the broadcast industry. It is one of the few remaining HF transmitting stations in the UK, delivering shortwave radio to millions of BBC World Service listeners.
